Ideation

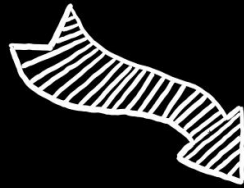

With the
inspiration from

NARNIA

A wardrobe that is a portal to
the fantasy world of Narnia

- A wardrobe that acts as a portal

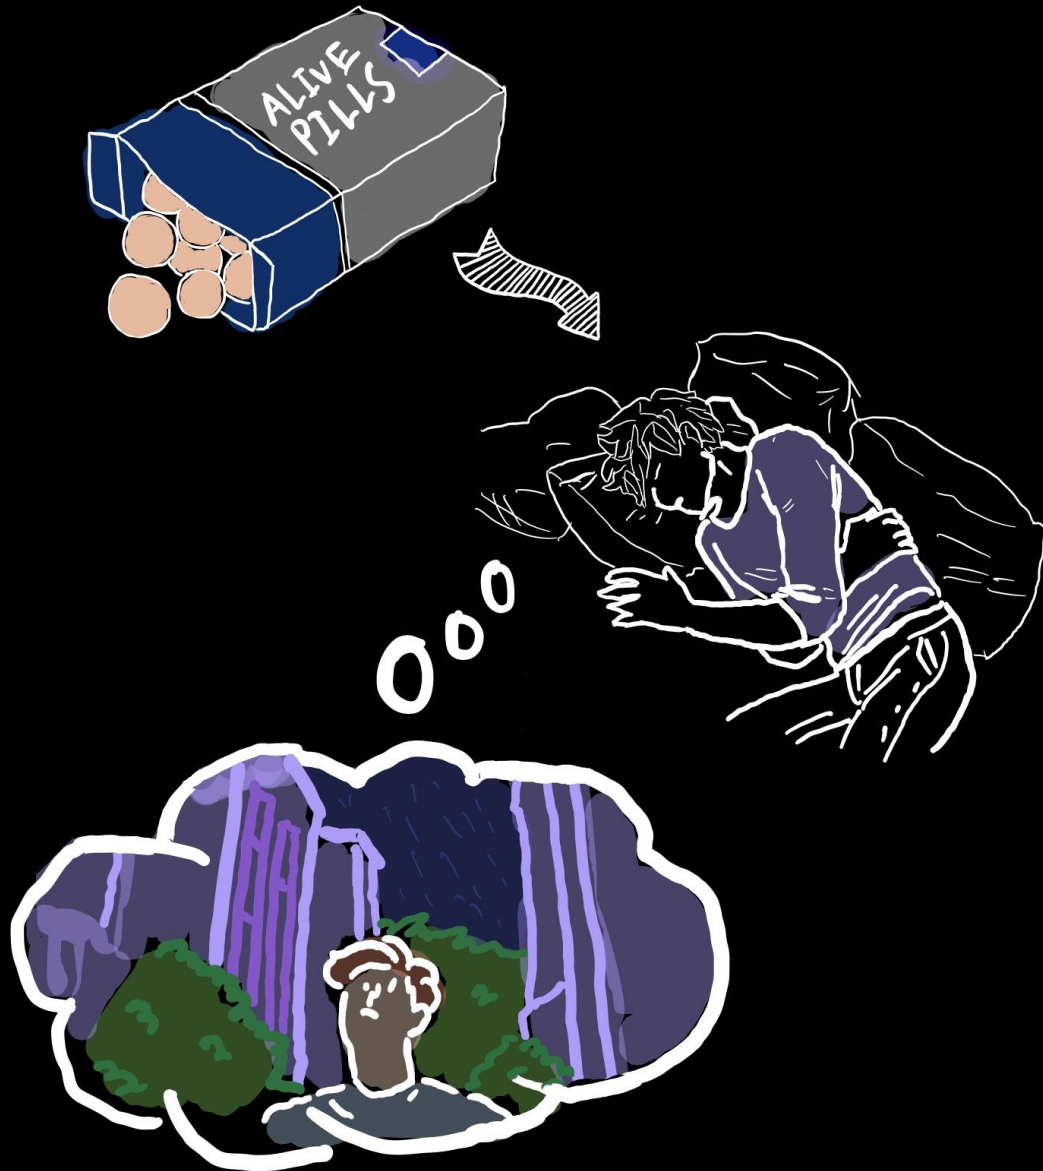

The Road to Infinity

Ideation 1

Based on the idea from Narnia, this wardrobe acts as a portal to another dimension.

In the other dimension, there would be an endless road that imitates the gravitational forces on earth. This way I could drive any car I desire on this road and it would feel just the same as on earth.

However, this method can get very boring quick as it eliminates the sole purpose of driving which is enjoying the environment.

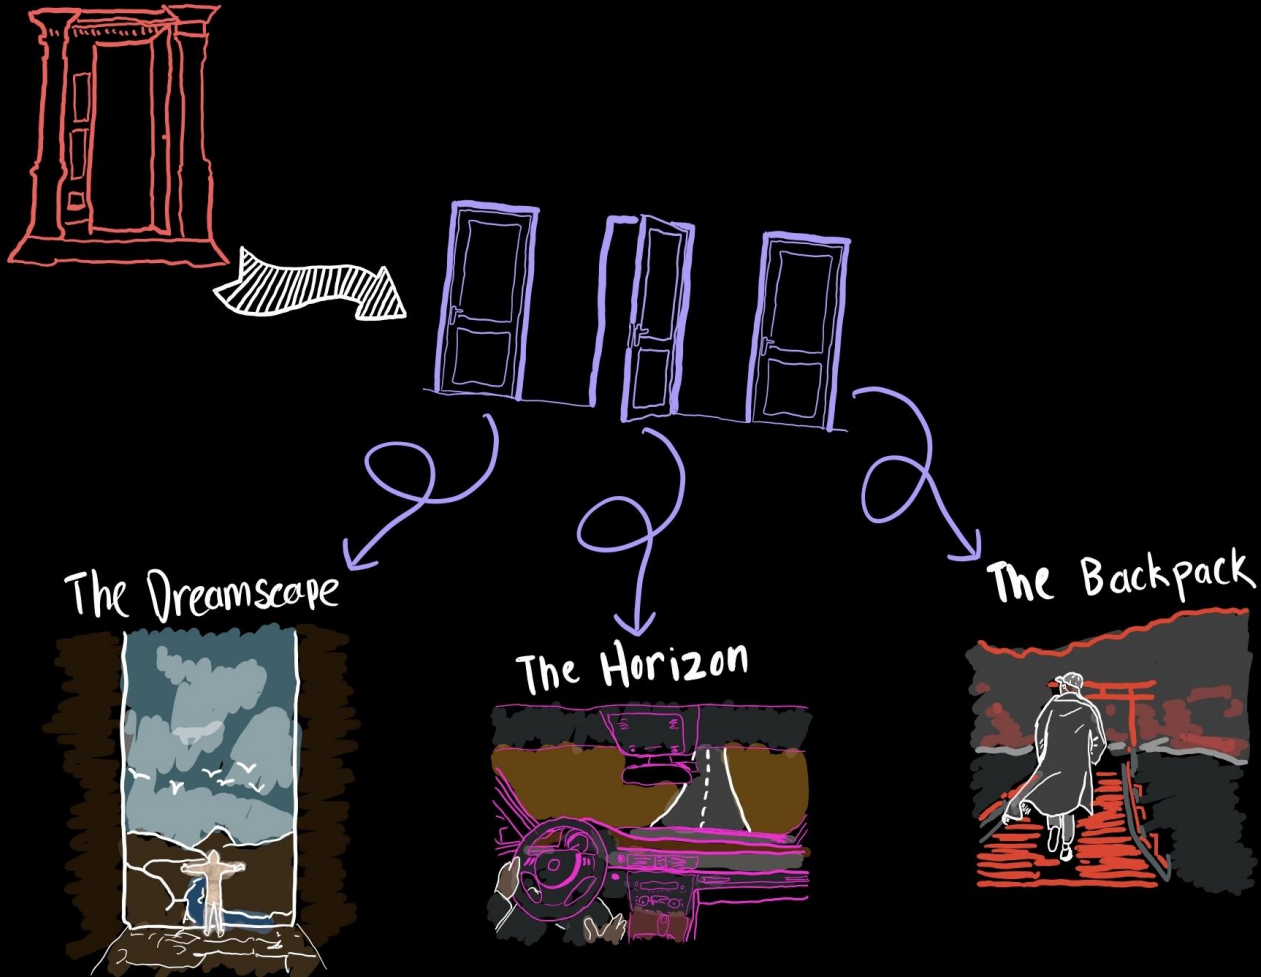

Ideation 2

Similarly, to dream enhancement supplements, these 'Alive Pills' will put you in a deep relaxing sleep and will make your dreams lucid and indistinguishable from reality.

This pill would allow me to do the things I love such as travelling and driving in another environment that has only me, alone.

Unfortunately, this idea may seem inappropriate as the Alive Pills can be an addictive drug such as ecstasy pills.

Final Ideation

This ideation is the **combination of the first and second ideation**. The theme of the first idea is more towards a very fictional theme, whereas the second idea has a theme that **closely resembles earth**.

However, a **'Room of Doors'** is added to give me **more options to explore** my own world depending on my mood.

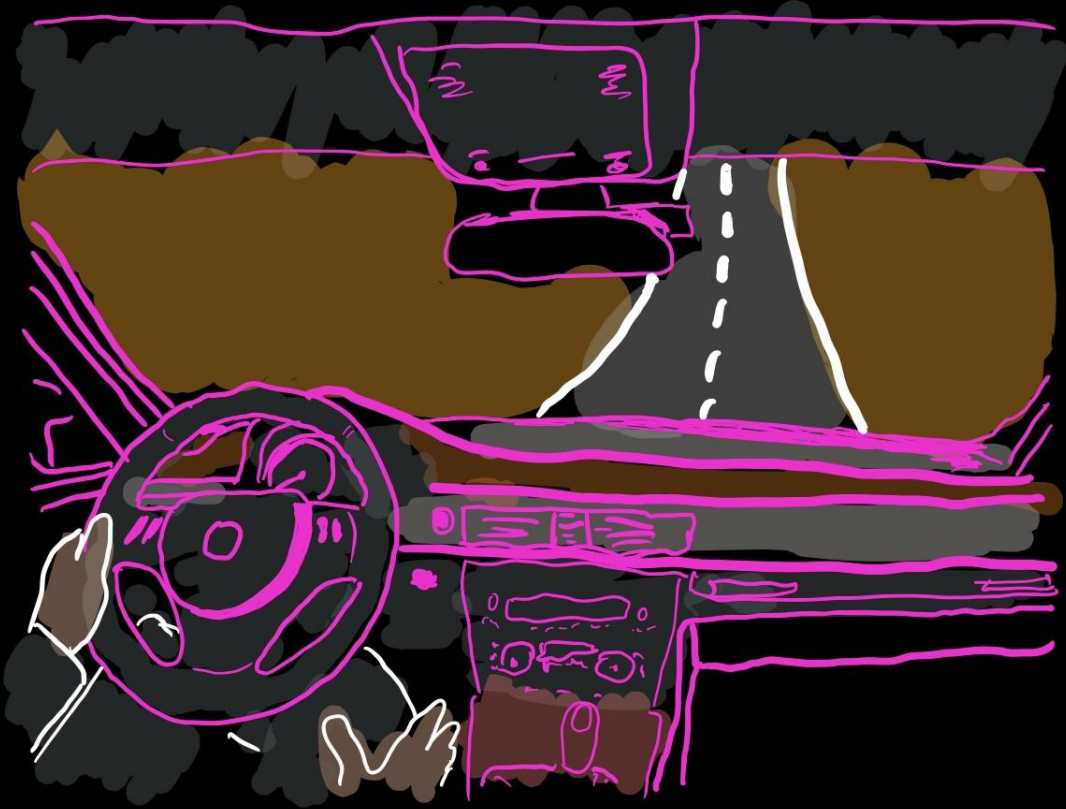

The Dreamscape

This door brings me to a blank space that can transform itself based on my imagination.

Let's say I am bored of my own bedroom, I could enter The Dreamscape door and make my own alternative bedroom with everything I wanted.

The best part about this is everything in here can be very personal and nobody could ever see nor touch it.

The Horizon

This door allows me to fulfill my love of driving. The Horizon allows me to drive in different places such as the most popular driving routes and racetracks on earth.

The best part about this is I will not have to spend any money on maintaining any cars and it allows me to drive safely and without the anxiety of an accident or causing harm to other people on the road.

The Backpack

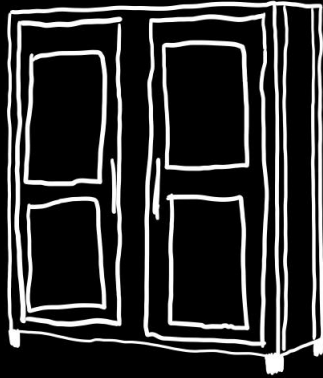

This door will bring me to places I want to explore in real life. I 'am able to explore new environments that I will not be able to do so in real life.

Travel allows me to escape life's daily demands, dramas, deadlines and helps me to clear my mind.

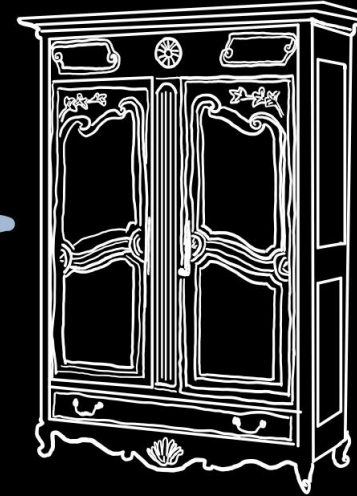

On top of that, I am able to come out of my comfort zone while being in my comfort zone. Isn't that bizarre?

Andraé

I 'am a firm believer that every person experience hardship in life, we tend to seek an escape from our problems, but we cannot simply neglect our responsibilities. Andraé can be used as a tool for me to escape from the harsh realities of the earth by doing the things I like. Andraé can also be viewed as a direct reflection of my personality, closeted away from the world.
